Page not found (404)

Request Method: GET
Request URL: http://localhost:8000/survey/1/pdf_report/

Using the URLconf defined in `projects.urls`, Django tried these URL patterns, in this order:

1. `admin/`
2. `[name='dashboard']`
3. `projects/ [name='project_list']`
4. `projects/create/ [name='project_create']`
5. `projects/<int:pk>/ [name='project_detail']`
6. `projects/<int:pk>/edit/ [name='project_edit']`
7. `projects/<int:pk>/delete/ [name='project_delete']`
8. `surveys/<int:survey_id>/import/ [name='import_responses']`
9. `surveys/<int:survey_id>/export/ [name='export_responses']`
10. `surveys/<int:survey_id>/download-template/ [name='download_template']`
11. `surveys/<int:survey_id>/report/ [name='swot_analysis']`
12. `volunteers/ [name='manage_volunteers']`
13. `surveys/<int:survey_id>/pdf_report/ [name='report_pdf']`
14. `surveys/`
15. `analytics/`
16. `login/ [name='login']`
17. `logout/ [name='logout']`
18. `password_change/ [name='password_change']`
19. `password_change/done/ [name='password_change_done']`
20. `password_reset/ [name='password_reset']`
21. `password_reset/done/ [name='password_reset_done']`
22. `reset/<uidb64>/<token>/ [name='password_reset_confirm']`
23. `reset/done/ [name='password_reset_complete']`
24. `^media/(?P<path>.*)$`

The current path, `survey/1/pdf_report/`, didn't match any of these.

You're seeing this error because you have `DEBUG = True` in your Django settings file. Change that to `False`, and Django will display a standard 404 page.
